ANNUAL
REPORT

2013

Men anpil chay pa lou

MANY HANDS MAKE LIGHT THE LOAD

- Haitian proverb

+OVERVIEW

Mission Statement

The St. Boniface Haiti Foundation is committed to helping those in need when no one else can. We work side-by-side with the people of Haiti to break the cycle of poverty and alleviate suffering through health care, education and community development. We work with compassion, respect and love for the people and communities we serve.

Vision

The St. Boniface Haiti Foundation will distinguish itself as a leader in redefining health care delivery, education and community development in Haiti. We will be recognized for our passion in providing quality care to the poorest of the poor in Haiti. We work toward the goal of building healthy, independent and self-sustaining communities.

SBHF HAS WORKED FOR SOCIAL JUSTICE IN HAITI SINCE 1983, ALWAYS CLOSELY COLLABORATING WITH THE POPULATIONS WE SERVE. OUR STRONG TIES WITH THE COMMUNITIES WE SERVE ARE OUR STRONGEST ASSET, AND EVERY PROJECT AND PROGRAM RELIES ON THEIR INPUT. WE PRIDE OURSELVES ON OUR COMMITMENT TO TREATING EVERY PERSON, NO MATTER THEIR NEED, WITH DIGNITY AND RESPECT.

EIGHTY-NINE PERCENT OF EVERY DOLLAR WE RAISE GOES DIRECTLY TO SUPPORTING OUR CORE PROGRAMS IN HEALTH, EDUCATION, AND COMMUNITY DEVELOPMENT.

SBHF is built on the belief that success in Haiti relies on a **commitment** to and a **partnership** with the Haitian people. The key to our success lies in building systems that **save lives**, one community at a time.

+LETTER FROM THE
PRESIDENT AND CEO

Dear Friends,

2013 was a year of tremendous progress at St. Boniface and the communities we serve. From the new bridge that allows access to the hospital during the rainy season to the start of construction of a new road in Fond des Blancs, we have seen remarkable growth in community-based infrastructure. At the hospital, we were able to inaugurate a 16-bed rehabilitation center specializing in spinal cord injury as well as a new state-of-the-art lab, the largest and best equipped lab on Haiti's Southern Peninsula. We also finished building a new warehouse that will drastically improve our supply chain for essential medications and have started construction on a desperately needed center for maternal and neonatal care.

More important than incredible improvements in physical infrastructure, St. Boniface continued to invest in the communities we serve through sustainable interventions in health, education, and community development. Our efforts are led by our team on the ground that are always willing to do whatever it takes to ensure that basic services are provided and that lives are saved. Whether it is a local community health worker in Fond des Blancs walking four hours to provide necessary vaccines to children living in an isolated location, or a community facilitator riding a motorcycle to a rocky mountaintop to ensure an HIV/AIDS patient receives their medication, our team goes to remarkable lengths to make sure people get the care they need and deserve.

Moving forward, SBHF continues to work towards our vision of healthy communities where "tout moun se moun" or all people are people. This Haitian Creole phrase challenges all of us to see all people as deserving of basic services and rights. Thank you for continuing to work with us towards a future where all lives have equal value. We cannot do this work without you.

Sincerely,

Conor Shapiro
President & CEO

+ST. BONIFACE
HOSPITAL

“SBHF’s main priority is saving lives, never turning anyone away. We empower them through education, income generating activities, and high quality health care in a very dignified way.”

- Dr. Inobert Pierre,
St. Boniface Director General

SBHF started as a one-room clinic, and has grown to a 60-bed hospital, with specialists in pediatrics, family medicine, internal medicine, obstetrics, and dentistry. We employ over **200 staff in Haiti**, including 17 doctors, 64 person nursing staff, 6 lab technicians, 2 ultrasound technicians, 3 mental health professionals, and 3 pharmacy professionals.

Our hardworking staff members are the lifeblood of SBHF, leading the way as we performed **39,916 physician consultations**, 4,595 prenatal checkups, and 12,961 checkups for children under 5. We delivered **954 healthy babies**, and admitted, on average, 109 patients a month. Between our busy hospital and community health efforts, we care for more than **65,000 patients annually**.

2013 SAW THE CONSTRUCTION AND INAUGURATION OF A CRUCIAL NEW LABORATORY, ALLOWING US TO EXPAND OUR DIAGNOSTIC ABILITIES. THIS VITAL FACILITY ALLOWS FOR NEW EQUIPMENT, HELPING OUR STAFF TO IMPROVE PATIENT OUTCOMES AND IMPROVE THE QUALITY OF CARE FOR ALL PATIENTS WHO RELY ON US.

In 2013, we made significant progress on the rebuilding of our satellite clinic in the remote village of Villa. Doctors and nurses continue to see patients in makeshift quarters as the new buildings go up, which will house and expand on operations that provide life-saving care to over 10,000 people.

+COMMUNITY HEALTH

The strength of our community health program lies in our **75 community health workers** and **42 mothers' counselors**. This dedicated team lead 762 educational sessions on topics from prenatal care to hygiene and sanitation, ran 156 mothers' clubs, and conducted **3,632 home visits**. Our doctors and nurses coordinated **158 mobile clinics**, providing 11,377 consultations to mothers and children.

2013 was an **encouraging year of expansion** for community health activities. We expanded our vaccination coverage, administered 16,366 HIV tests, enrolled 116 new patients in lifesaving anti-retroviral drug therapy, and worked to improve access to palliative care services. The team administered 765 malaria tests. Special facilities were built to treat the 240 cholera patients who sought care at the hospital. We registered 97 new patients for treatment at our tuberculosis clinic, and provided essential interventions for 174 children with severe malnutrition.

“SBHF was chosen for their efficient and well-developed community health programs. The Ti Fwaye program empowers women, giving them a sense of achievement when they can feed their children and keep them healthy. The dedication, work ethic, and interest of their staff and community health workers played an important role in the success of this program.”

- Roodly Archer, PhD,
Epidemiologist, Centers
for Disease Control
and Prevention

SBHF is proud to be a partner of the CDC for our Ti Fwaye program, which began in July 2013. The program provides education on nutrition, water and sanitation, and hygiene for mothers with malnourished children. Mothers' counselors are responsible for each of the Ti Fwaye sessions, where groups meet to learn about balanced diets, cook meals together with local products, and take time to engage with their children. Data taken before, during, and periodically after each session helps each mother follow the progress of their child, and allows SBHF community health workers to track the progress of children in their areas. In the first session, all 28 children gained weight. Marie, a mother in the program, said, “My child has never had a normal weight, and has never really been interested in eating. After these two weeks, he eats and eats, and finally has a normal weight. I am so thankful for this program, and the help my child has received.”

"I'm very proud to be part of a team that provides quality preventative and curative care to the most vulnerable at no cost."

- Dr. Miliane Clermont,
Deputy Director General

DOCTORS IN FOND DES BLANCS NOW HAVE THE OPTION OF PRESCRIBING REST AT KAY FANM ANSENT, A HOME FOR AT-RISK PREGNANT WOMEN THAT SBHF OPENED THIS YEAR. IF DOCTORS ANTICIPATE COMPLICATIONS DURING DELIVERY OR IF THE WOMEN LIVE SIGNIFICANT DISTANCES FROM THE HOSPITAL, THE NEW HOME HELPS DOCTORS PROVIDE QUALITY CARE LEADING UP TO THE BIRTH.

SBHF saw a ninety percent decrease in cholera cases in our catchment area from October 2012 to March 2013. Our team fought the deadly waterborne disease by providing latrines and wells, distributing soap, and leading hygiene education sessions. Community health nurses and volunteers continue to do home visits and deliver lessons about the importance of hand washing and sanitation.

+REHABILITATION AND
REINTEGRATION PROGRAM

The foundation of the Rehabilitation and Reintegration Program is to promote independence and social inclusion for people with disabilities. The program began in response to the 2010 earthquake, and has grown exponentially ever since. There are now a total of **78 people with spinal cord injury (SCI) in the program**. Our center houses 16 people for long-term rehabilitation, and community mobile clinics are provided for 62 people who have reintegrated into communities around the country. This year, our interdisciplinary team conducted over **500 mobile clinic visits**, facilitated 119 psychosocial support groups, and modified over 25 homes to make them more accessible.

We are proud to have greatly expanded the range of rehabilitation services we offer to the whole community. In 2013 we provided **326 outpatient physical therapy sessions** for people with a variety of needs, including post-operative, pediatric, stroke, and burn care.

“The work accomplished by St Boniface is unique in Haiti. They have provided a number of people seriously disabled by spinal cord injuries with the emotional and clinical support to overcome the disabilities and function productively in their communities.”

- USAID Mission Director
John Groarke

“The new campus is incredibly exciting because it allows our participants to realize an increased level of independence and autonomy. It gives them the ability to shift their mindset from that of a person who is sick, to that of a person beginning to adapt to life with a disability.”

- Betsy Sherwood, Program Manager

In April 2013, we officially inaugurated our new campus for the Rehabilitation and Community Reintegration Program. In addition to family units and dormitory-style rooms, the new facility boasts a rehabilitation gym, community center, wheelchair repair workshop, vocational training room, patient resource library, private counseling space, wheelchair-height garden boxes, an accessible cooking facility, and a basketball court. We expanded our vocational programs significantly throughout the year, with courses offered in adaptive gardening, carpentry, computer studies, sewing, jewelry making, and small business management. We were proud to make nine microfinance loans to people with SCI living in the community.

“ON SEVERAL OCCASIONS, WE HAVE HAD THE OPPORTUNITY TO COLLABORATE WITH SBHF. THEIR WORK IS MUCH APPRECIATED IN HAITI, ESPECIALLY WITHIN THE COMMUNITY ADVOCATING FOR THE RIGHTS OF PERSONS WITH DISABILITIES.”

- Gérald Oriol Jr.
Secretary of State for the Intergration of Person with Disabilities (SEIPH)

+EDUCATION

SBHF is dedicated to supporting and expanding educational opportunities. We provide scholarships to as many students as possible, focusing on children who wouldn't otherwise have access to education. This year, we supported **387 primary school students**, **279 secondary school students**, and 37 university students. Various forms of support were provided to **30 schools**, ranging from teacher salaries, to books, to digging wells for schools with no drinking water.

"I usually say to students, 'you have only one opportunity in life, and that's education.'"

- Jean Rony Bellange,
Education and Community
Development Assistant

JEAN PHILIPPE FRANCK AND JEAN EVEINS BUISSERETH, BOTH 27, ARE TWO MEMBERS OF A HARDWORKING GROUP OF 18 LOCAL STUDENTS WHO HAVE RECENTLY GRADUATED FROM UNIVERSITIES ACROSS THE COUNTRY. JEAN PHILIPPE TRAINED AS AN AGRONOMIST IN PORT-AU-PRINCE AND HAS JUST FINISHED HIS SCHOOLING. "IT'S AN AGRICULTURAL COUNTRY," HE EXPLAINED. "I WANTED TO BE PART OF THAT." HIS COMPATRIOT JEAN EVEINS ALSO JUST GRADUATED, FROM MEDICAL SCHOOL, THIS PAST DECEMBER. BOTH OF THEM PLAN TO CONTINUE THEIR EDUCATIONS, BUT IN THE MEANTIME, JEAN PHILIPPE AND JEAN EVIENS ARE WORKING AT SBHF. "I'M FROM THIS TOWN; WORKING AROUND HERE MEANS I'M HELPING FAMILY AND FRIENDS," SAYS JEAN EVEINS. "I WANT TO GIVE BACK AFTER ALL THEY'VE GIVEN ME."

+COMMUNITY DEVELOPMENT

SBHF is constantly working to invest in our community beyond providing medicine. We have established several community development programs, ranging from a cooperative livestock-raising program for teen mothers, to a home for the elderly, to community gardens. With initiatives like these, SBHF aims to develop sustainable livelihoods for those in our rural community.

“We hope with the training and the investment they will become independent producers, able to support their own families.”

- Michelet Mascary,
Education and Community
Development Coordinator

SBHF has begun a program for 25 teenage mothers, teaching them livestock skills, starting with chickens. The goal is to sell each crop at the local market and to the hospital, creating a product cycle and providing these women with an consistent income.

ALL OF OUR WORK IS CENTERED AROUND EMPOWERMENT, AND WE STRIVE TO FOSTER THE DEVELOPMENT OF LOCAL LEADERSHIP IN THE COMMUNITIES WE SERVE. WE HAVE FOUND THAT BY ENCOURAGING EDUCATION AND OPPORTUNITY, WE ARE ABLE TO CREATE SUSTAINABLE PROGRAMS AND BUSINESSES THAT FLOURISH WITHOUT US.

SBHF's first demonstration and training garden is growing strong, a test run for a project where 20 community members at a time train in gardening and maintenance techniques. These producers then sell their produce to the SBHF hospital and the community.

+AWARDS

Four-star rating from charity navigator SBHF received another 4-star rating from Charity Navigator, the nation's largest independent charity evaluator. This is the seventh consecutive year that the organization has received a four-out-of-four star rating. Only 2 percent of charities assessed by Charity Navigator received this rating this year.

HUMANITARIAN AWARD

SBHF was recently awarded the Lucienne Deschamps Foundation Humanitarian Award for our work in spinal cord injury and community-based disability programming. The foundation recognizes six individuals or groups each year who they feel are doing positive work in the Haitian community.

ATHENAHEALTH VISION AWARD

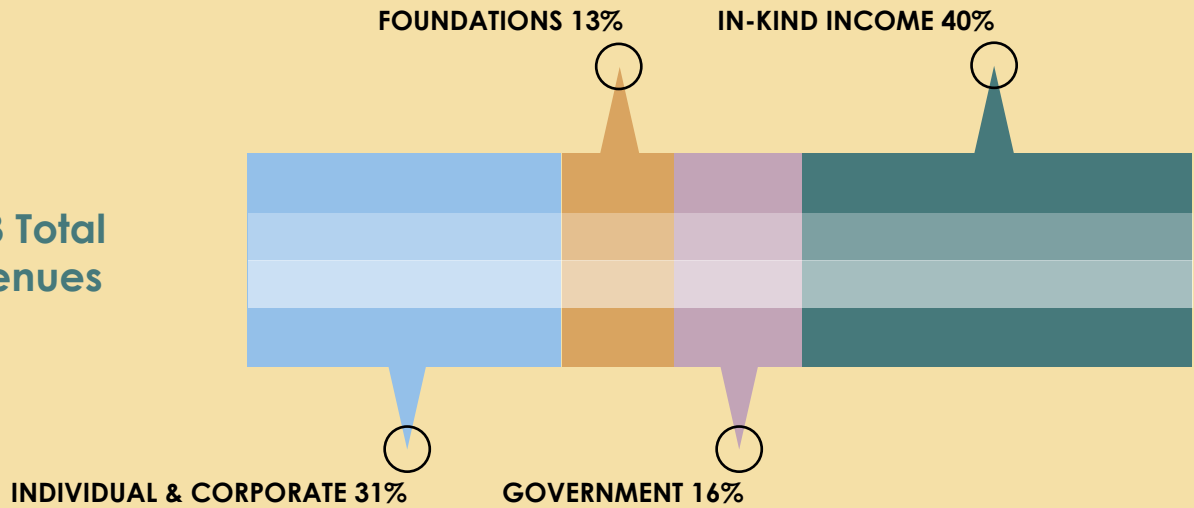

Athenahealth, a leading provider of electronic medical records services, honored the SBHF with their 2013 Vision Award this past April, for its 30-year effort to improve the lives of Haiti's underserved. As part of the award, athenahealth is partnering with us to implement cloud-based electronic medical records at the hospital.

BOSTON UNIVERSITY ALUMNI AWARD

Conor Shapiro, SBHF President and CEO, was honored by his alma mater, the Boston University School of Public Health, with the 2013 Young Alumni Achievement Award, for his "extraordinary contributions and dedication to the field of public health."

This past year was one of considerable growth for St. Boniface Haiti Foundation, and we have plans to make 2014 just as momentous. We could never have the impact we do without your support, enthusiasm, and commitment to our mission. Your generosity makes our work possible!

THANK
YOU
MESI
ANPIL

Your generosity makes our work possible.

+CURRENT KEY STAFF and Board of Directors

Conor Shapiro, *President & CEO*

Samantha Hannon, *Director of Finance*

Betsy Sherwood, *Program Manager & Development Asst.*

Jennifer Zimmermann, *Program Manager*

Lisa Beaudette, *Accountant & Executive Assistant*

"In Haiti there is a popular proverb used often by the poor: **'tout moun se moun'** or **'all people are people.'** This continues to be a lesson and a challenge for our organization and our work."

- Conor Shapiro, *President & CEO*

+HISTORY

SBHF's story began in 1983 when the parishioners from St. Boniface, the poorest parish in Quincy, MA, traveled to Haiti. Their experiences moved and inspired them to make a commitment to those they had met, and they continued fundraising for Haiti. Led by Father Jerry Osterman and parishioner Nannette Canniff, the group eventually opened a one-room clinic in Fond des Blancs, a remote town in the mountains of southern Haiti. They were impressed with the resiliency of this community, even as its people suffered conditions of extreme poverty. They built a clinic, a school, and eventually the St. Boniface Hospital, which was completed in 1992. Since that time, SBHF has grown exponentially, drawing support from donors and partners at both national and international levels.

+LOOKING FORWARD

2013 was a year of great progress for SBHF, and the excitement will continue into 2014. We anticipate the Villa satellite clinic will be finished and inaugurated, and construction on our new Maternal Health Center will be complete. Our goal by the end of 2014 is to drastically expand access to prenatal and maternal services for thousands of mothers and babies, while maintaining our commitment to our wide range of current programs, to create a stronger, healthier, and more sustainable Haiti.

OUR TEAM AT ST. BONIFACE HAS A *'do whatever it takes'*

approach to getting quality health care to those who need it most. This attitude is already turning 2014 into an exciting year, one that will involve significant growth, most especially with the construction of the new maternal health center."

– Jim Ansara, Founder of Shawmut Construction & SBHF Board Member
